(By Ms. Maranzano) Do you make the determination of whether a bill has a hearing or not? MR. SWEETEN: Objection to the question as compound. And don't reveal matters subject to the legislative privilege including your mental impressions, thoughts and opinions. You can answer as a general matter of procedure, if you can. But don't reveal privilege. A. As a general matter, chairmen determine what bills are heard and when they're heard. Q. (By Ms. Maranzano) Can you direct your attention to Section 7 of HB 1706, and just take a quick look at that. A. What page is that on? Q. I'm sorry. Page 4 and I goes on to Page 5. And it looks like it also goes on to Page 6. And actually the top of 7? A. Okay. Q. Do you see that well, do you see that this	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	Bill. And so we wouldn't have been involved with that. And I don't know who the Senate sponsor was. Q. Is it pretty unusual for Senate staff to be involved in developing a House Bill? MR. SWEETEN: You can answer as a general matter. A. As a general matter, yes. But there were times when we worked with House members to build an early consensus, if that's ever possible. Q. (By Ms. Maranzano) Did you take a public position on HB 1706? A. I don't recall. Q. Do you know if there was any analysis done on HB 1706? MR. SWEETEN: Don't reveal matters of privilege. MR. SWEETEN: Hold on a minute. How it prevents fraud. No, he's not going to answer that.

4 That's subject to the legislative privilege. 5

BY MS. MARANZANO:

Q. Was there testimony on the public record about --MR. SWEETEN: Counsel, let's go to the order here.

MS. MARANZANO: Yeah.

MR. SWEETEN: Specifically, we are on Page 16 of 16 of the court's order. And that provision order says, "Further ordered that questions of depositions shall comply with the terms and restrictions set forth in this order.

MS. MARANZANO: Yes.

MR. SWEETEN: Yesterday, in two depositions held at this building, we had a sitting representative sit and answer these same types of questions until 7:00 p.m. in violation of that provision of the court order. We had another witness, Representative Aliseda, who was here until 6:15 p.m. -- no, it was 7:00 because I was waiting for the attorney to come back so we could visit about other matters.

Now, we've got an order from the court that explicitly prohibits and requires that deposition

be very clear with the Senator today that I'm asking him questions about the public record. We've had exchanges and there have been times when I have withdrawn questions. There's been times when you have withdrawn objections. So, you know, I think we're both making good faith efforts to comply with the order.

And the -- you know, all the attorneys representing the defendant in this matter are doing the same. And it's absolutely our position that we are complying with this court order.

And, you know, my understanding, and obviously I wasn't involved in those depositions yesterday. My understanding is that part of the reason people were here late was because there were problems with documents that had nothing to do with questions at a deposition.

MR. SWEETEN: Well, I would submit a very different view of things and I have. I've stated it. I'm simply -- I'm letting you know. And I'm making this clear on the record, that this has got -- you've got to tamper this down based upon this order, or we're going to seek relief from the court.

This is -- yesterday's exercise was in violation of the court order. And we are starting to get there here. And I want you to take this very

If you go to what I call DPS, what used to be Motor Vehicle, the last discussion I had with somebody about it about a month ago, it was a very important person trying to avoid the lines. So, there are lines you've got to go through to get there. You know, it's a real hassle. And if you don't have a car I guess if you don't have a driver's license, you've got to worry about driving. If you don't have a car, you've got to figure out how you get there. If you're in a city like Houston, it's hell getting a bus anywhere. I guess if you ride bikes like I do, you figure you ride a bike. You're obese anyway but it's a hassle

I doubt that they have said to people, "If you think there's a possibility that a voter ID bill would have a disparate impact on people of color" I don't think the people of color who favor voter ID would say, "Oh, that's fine." Q. Are you aware if such a center is slated to be built or being built in Houston? A. I don't know if one is slated to be built but when I made this statement, I knew that there was not one in my district. Q. Okay. But as far as whether or not perspective plans, you don't know one way or the other? A. As broke as the State of Texas is, even if someone suggested it, I wouldn't believe them. Q. You indicate in paragraph 12 and I won't read the entire thing but let's look at the last sentence first, go ahead and read that to yourself, if you would. A. Okay. Q. All right. And are you indicating my question is are you aware of any specific studies that were known to proponents of Senate Bill 14, any research on the disproportionate impact of Senate Bill 14 that were not or that were withheld in any way? A. I don't think the proponents did any research on any disproportionate impact. They were not discussing whether or not there was any disproportionate impact in specific terms. It was just blanket comments, "I don't think it will have an impact." Q. And just to drill down a little more on that, I think what I'm hearing you say is there are studies for or against, that support or do not support your position that are in the public domain, correct?

Clearly, the people who were in charge and who considered this a priority and had worked on it for three previous sessions, with the arsenal of the national voter suppression experts and all the other people coming to bear and the full arsenal of the resources of the State of Texas at their disposal, I think that they did have an advantage in the policy making process to make their case. Q. In no way were you precluded on the Senate floor or during the Committee of the Whole proceedings from offering any sort of research that you felt supported your case other than the time that it would take to find or assemble that research; is that correct? A. Other than in terms of resources, staff, in the arsenal of state government, second largest state in the	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	sort of poll results in the event they existed? A. No, I was not precluded. Q. Okay. Did you have any poll results that you offered on the floor? A. No. I was not aware of any poll results that argued my side. My sense of poll results is that, as I said yesterday, it depends on how you ask the question. And you have to have the resources to go and ask the question in a way to make your case. And as an example, if someone had asked the question of voters in my district, "Would you be for a voter identification requirement if it only applied to people showing up to vote, not mail-in ballots, where a good part of the fraud that people have said they can prove exists, would you be for it," or if it said, "Are you for it if you know that a disproportionate number of people of color, African American and Hispanics, probably don't have the government ID," or if you said, "Well, they're going to lose" a large percentage of those people don't have driver's licenses, and to get the state ID, they've got to go to the same place where they owe money. They've got to show up to somebody in a uniform and say, "Can I get this state ID?"
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	chose to do? A. No, I wouldn't say that I had enough time to do it because I didn't have the resources, nor the full arsenal of the State of Texas. I didn't have the distinguished Attorney General's Office advising me along the way and pulling together everything that I ought to say to put in the record or to try to keep out of the record. the other half of the committee, those committees are given a jurisdiction, and they have official oversight over agencies, they are part of the legislative branch, and so I think that's a big distinction between a committee and a caucus. And a caucus is a body of members that, you know, again, work on issues of similar interest or has a -- you know, lots of commonality with the membership group and members work in achieving objectives that are of mutual interest.

Q. Does MALC have an official mission statement?

A. I'm not sure that we do. We may. I've been a -- I've been a member of MALC since my election or my first session in 2001, and I've always known that while I may not have ever seen it in print, I view MALC as not only, you know, the oldest and largest Latino caucus in the United States, that our mission is to advocate on behalf of the minority community in Texas. And I think every chairman has sort of had that deference to -- to tailor the -- the need of the caucus, I guess, depending on what is going on at the -- in the present day, and so I can --

You know, if I may, in the early 1970s,
MALC had a much different meaning. MALC was -- was -You know, people have a tendency to say that MALC looks
like they are just Hispanics that just happen to be

Democrats, and they are just a democratic group operating as a Hispanic organization. MALC was created in the 1970s because the democratic majority of the House didn't view the opinions and the voices of the Mexican American representatives the way they wanted to be represented, and so they organized to combat a democratic majority to give themselves a voice and using their leverage as a number of votes to achieve and accomplish their objectives.

That's 1970s. You know, we're now in 2012, and the needs are different now. You know, we -- we very much will never lose site of our mission which is to advocate for civil and social justice on behalf of the minority community, but we also recognize that as we grow demographically speaking, that we have a much larger responsibility and obligation to participate in the body politic to either come up with practical solutions to problems or to find ways -- to find ways to deal with that reality that -- that these are issues that Texans are going to have to address that, you know, census after census dictate or indicate that these Texans will be largely minority.

And so I think that MALC sees itself now with a very different mission of having to prepare itself and to prepare folks to -- to accept the

demographic changes the State is bringing and be addressed and be prepared to have leadership positions to provide those solutions on behalf of a growing constituency.

Q. To fulfill what MALC views as that role or its role, what were the primary activities -- what were the primary things that they do -- it does to achieve those goals?

A. Well, I think that it's two-fold. I think that there is an internal -- you know, there's an internal objective which is to be a member driven member service caucus that provides, you know, again, the facilitation of ideas and the flow and exchange of ideas between the membership, our ability to track legislation that we see as things we want to support and things that we want to engage on. Also, to help members advance their individual legislative agendas.

The idea of a caucus is that if the caucus comes together on this issue, then you start off with a block of votes and that's a very good head start in a business where, you know, counting the majority makes the difference on whether your ideas make it out of the House or not. So that's sort of an internal role, and I think MALC does a very good job keeping its members active and engaged and being supportive of their efforts

to pursue their individual legislative pursuits.

Externally, again, I think that there is a recognition that the membership of MALC is all over the State of Texas, and so as a consequence, we find ourselves being an external voice too for advocacy groups, community groups, Hispanic elected officials across the state that come to see us about issues that are important to their region, understanding the different needs and desires of a state as big as Texas that, you know, can elect a Hispanic sheriff in a city as large as Dallas, but at the same time, you know, has a mayor from a border state in Eagle Pass that, you know, happens to be Hispanic as well that have totally different priorities, totally different issues and, you know, MALC sort of tries to serve as that repository of ideas, and -- and I think that over time more and more people outside the capitol have come to MALC for guidance and assistance and advocacy on issues that they feel are important to help.

Q. Let's shift our focus for a minute to election and voting issues and MALC's activities in that regard.

Does MALC register voters?

Q. But if a press release were to go out or if a press conference was to be called on behalf of MALC, how many members would be authorized to issue that release or call that press conference on behalf of the organization?

A. Well, the MALC staff would always handle the work, so members will never be asked to do that work product, so that's more of a staff driven thing, and I guess the true answer lies in the origin of the news conference. So if, for instance, we had a member who was, you know, very concerned about, you know, voter identification legislation and wanted to have a press conference to highlight that issue, you know, they would simply, you know, coordinate that with, you know, MALC and MALC staff, and they would be asked and charged to lead that.

On the other hand, there have been press conferences that I have arranged. I have asked people to speak on our behalf, and so there's -- it's not necessarily very formal, but I think that members by their own designation as elected officials have the ability to host and conduct press conferences and really

- rarely need the support of MALC. So it's not something that we focus on as a member service, but, you know, we have a briefing room. For instance, if somebody wanted to use our briefing room, it just requires them to ask for the use of it.
- Q. Suppose we're talking about something very formal like filing a lawsuit or intervening in a lawsuit. Which members have the authority to do something like that on behalf of MALC?
- A. I think that any member of MALC has the ability to raise the issue in terms of, you know, this is something that we should get engaged in or this is something that we should stay away from. I think that when it rises to the level of spending funds, I think it falls within the realm of the executive committee. I think when it comes to the discretion of the caucus to engage in these matters, it certainly can come from the chairman as well, and so I think the by-laws, you know, sort of spell out what each officer's duties are.

I do know that as chairman that I do have broad discretion, but I also know that the practice of the caucus is for any individual member to be able to raise any individual issue at any time and not be limited because they're non-officers.

Q. But could a non-officer intervene in a lawsuit

- or file a lawsuit on MALC's behalf?
- I don't believe they can.
 - Q. The five officers that we've discussed a couple of times, the executive committee, are any of those officers currently Republican?
 - A N
 - Q. Do you know if any of the five current officers are members of the House who voted in favor of Senate Bill 14?

A. If any executive committee member voted in favor of Senate Bill 14? Bear with me. I didn't vote for it. I don't believe Vice-chairman Rodriguez voted for it. I don't believe that Secretary Martinez voted for it. I don't believe that Treasurer Gutierrez voted for it, and I'm fairly certain that Counsel Gonzales did not, as in Veronica Gonzales, did not vote for it.

- Q. Do you know how many MALC members did vote for Senate Bill 14?
- A. Specifically, I don't know. I want to say anywhere from five to seven members. I can certainly take a look at the list during the break and come back and answer that.
- Q. That would be great. Did any MALC members oppose MALC's intervention in this suit?
 - A. Not -- Not in any communication that came to

the MALC staff and myself.

- Q. Do you know how many Republicans are currently members of MALC?
- A. I don't off the top of my head. I certainly could look at the membership list and tell you. I mean, I would sense it's anywhere between four to six or seven, somewhere around there. It's a small number.
- Q. But because the membership list is public on your website, that is available.
- A. Absolutely it's available.
- Q. How many employees and/or staff does the caucus have?
 - A. I think it varies from a legislative session to an interim session, so, currently, there are -- there are -- not to be technical, but I'd say there are two and a half members of MALC. We have one full-time employee. We have a second full-time employee. And Marty, you know, appropriates his time between the capitol office and MALC, and so, I mean, in theory he works for MALC as well, but he doesn't exclusively work for MALC.
 - Q. When you refer to the capitol office, you are referring to your staff?
- A. Yes.
 - Q. Does MALC rely on volunteers?

I think in the -- if one could get away with 66 68 1 1 saying -- using the word organized on the House floor, I MALC take a public position as an organization whether 2 Senate Bill 14 should pass? 2 mean, it's -- anyone who has experienced it, it's less 3 3 than that, but I think the record, you know, clearly A. It's to facilitate passage of something that 6 an infrequent request that that's happened. I mean, it 7 7 would be difficult to do. 8 Q. It's just not infrequent. earlier about, well, you can -- people pass entire bills 10 I mean, no one would be surprised by it if someone were 10 as amendments and there are one or two pages, of course 11 to make that motion. 11 they do. I mean, the rules say that you can have no policy, we all sort of hold a fidelity to the 20 20 rules, okay, and so in that instance, it's -- it's the institution itself and not going to create a practice 21 21 that -- you know, that can be detrimental to the OK Corral on the House floor, I mean, and so -- but I do 22 22 believe that the -- the rules themselves are in place institution, and I think that's why you see -- you know, 23 23 have a tendency to be designed to work towards the people talk about, you know, the institution sometimes 24 24 elimination of proposals, not to encourage and foster -being bigger than the two parties that represent it. 25 not to encourage and foster the way you accelerate and 25 Q. I think rules used to accelerate -- If you have 6 the legislature and we introduce 5,000, 6,000 pieces of 6 the ability to use the rules to accelerate legislation, 7 7 legislation every session, we pass 1,000 of them, 1,500, then you probably have the ability to not have any 8 the fact that we have 140 day time limit, we have 8 rules, and the fact of the matter is -- I mean, the 9 9 express rules that prevent activity on the floor of the rules are really not designed -- I think the rules as 10 House within the first 60 days, you are -- literally, 10 written when you -- when you read through them, you 11 it's a race against the clock. 11 recognize that they apply to, you know, really protect 12 And so to the extent that -- that you are 12 the minority voice as the way I see it. 13 trying to advocate and pass your proposals, your 13 And -- And so, you know, I think it's fair 14 measures, you are working against hard deadlines that 14 game -- it's fair game that if you wrote the rules, you 15 can defeat a bill, I have rarely seen someone say we 15 know, you ought to be in a best position to follow them. 16 need to suspend all the rules so that we can take a bill 16 These are rules that were written and passed by the 17 and pass it now. There have been accommodations made faster. It could be easier, but, certainly, it's not 13 14 to facilitate passage based on whatever barrier you ran 14 because groups like MALC are holding up the train. I into in the prior session. There's at least a couple of 15 15 think it -- I think that we both acknowledge that 16 examples in that regard. 16 there's a shared responsibility of being where we are 17 Q. Yeah. 21 21 Q. 12 years now in the House, how many of those Q. -- among many stripes. The polls that we 22 years were you in the majority and how many of those 22 looked at from Dr. Shaw's report would suggest --23 years have you been in the minority? 23 A. It would tell half the story. 24 A. I've been in the majority two years and the 24 Q. That Voter ID bills are popular, correct? 25 25 A. It would say half the story, correct, and I'm minority ten. 166 168 1 Q. Implementation of Senate Bill 14 has been 1 curious to see responses to Dr. Shaw's questions about 2 delayed for about a year now. Can MALC quantify the 2 same day voter registration or being able to vote by 3 3 burdens, financial and otherwise, that this process has internet, being able to, you know, register to vote as 4 placed on the State and the people of Texas? 4 you get your driver's license, being able to register to 5 5 vote as you pay your property taxes. I'd like to see A. Can we quantify in terms of telling you how 6 6 much it cost? the responses to questions about making voting easier. 7 7 As I think that -- You know, just because Q. Or the financial burden over the last year of 8 8 preclearance and the other burdens. Dr. Shaw's been so gracious to give us just a few sets 9 9 A. Sure. You know, I -- I think it's -- I think of questions doesn't mean that's the only thing Texans 10 10 are thinking about. Let's find out what they really that's a fair question. I think it's also equally fair 11 think about voting, and let's find out ways to 11 to sort of measure the fact that it does take two to 12 Tango. You know, one defendant or defendant-intervenor 12 accommodate that. I can tell you the area I represent, 13 can control the -- the -- you know, the legal docket 13 they'd like to see a much longer voting period. They'd 14 system. I think it would be 18 18 information in discovery, and, you know, I can tell you great if we make those accommodations to make voting 19 19 in redistricting, you know, that the state went so far more accessible. I agree with you. 20 20 as to blame the litigants for slowing things down. Q. Do you agree that as a covered jurisdiction, 21 I mean, if things were perfect, there 21 Texas is at a tremendous disadvantage when it attempts 22 wouldn't be any litigation. So I think that if -- if 22 to enact laws that change voting procedures? the State wanted to facilitate a more efficient means of 23 23 A. Would MALC have supported Senate Bill 14 if it demonstrate that they are working with clean hands and 5 in good faith, I think that's a distinction Texas earned 6 had allowed for non-photo IDs to be used? 7 7 all by itself as a result of its history. A. I think that there was a package of ideas that 8 Q. But would you disagree with the quote that 8 would have made Senate Bill 14 more of a compromise 9 we're still at a disadvantage as opposed to non-covered 9 position that I don't think -- You know, MALC doesn't go 10 jurisdictions? 10 into a room and do a straw poll and say we're going to 11 A. I think that it's a speculative injury if Texas 25 Q. This morning, if I recall, you said that MALC 170 172 1 were to prevail. 1 opposed Senate Bill 362, is that correct, in 2009? 2 Q. Well, it's to -- it's to let Texans know that given a -- given any real consideration. 12 12 we've come a long ways since the days of Jim Crow, I (Exhibit 11 marked.) 13 think, and that's something that we need to acknowledge 13 Q. Do you recall why that was? A. Well, I mean, I think it's let's put this in proper context. The fact of the matter is Senate Bill 362 never came up for a vote on the floor of the House, and I think you and I have had the very engaging conversation about, you know, policy choices as reflected by statements of voters in journals. I mean, we don't have one for Senate Bill 362. Are there any circumstances Because I guess Senate Bill 362 wouldn't even really truly have been a photo ID requirement with the long list of non-photo IDs. A. Sure. Q. Are there any section you could imagine in which a photo ID was required that the MALC could support that bill? A. You know, I know that the MALC would have been in support of MALC member amendments to do certain things. We've talked about exclusions for senior citizens. We've talked about opening the list of photo identifications. You know, I think the fact of the matter is if we look at the evolution in voter identification legislation, when you compare the 2011

181 183 1 it -- characterize it accurately. You were talking 1 have prosecutors, assistants at the Attorney General's 2 Office that's bill funded. We have lots of good lawyers 2 about the purpose of the bill. I believe you said that 3 the rationale remains in your words elusive. You said 3 out there. If we needed to really work on our voter 4 4 fraud to make this a real priority, we could have done that you don't believe there is a lot of in-person voter 5 5 the work. Instead, we passed the bill because someone fraud going on. 6 says, well, you don't know how bad it is if you are not 6 Are those fair characterizations, A, of 7 7 what you've said, but, B, of your position? there. 8 A. I think the transcript will reflect what I've 8 I can say that about a lot of things. I 9 9 said, so if I differ with what's in the transcript, I could say that about the people sitting in traffic right 10 10 rely on the transcript. That said, I think in its behind you. I can say that about the people who showed 11 11 up to the health clinic today and found out that they proper context that the notion of a high level of voter 12 12 are no longer eligible to receive services. impersonation activity taking place is only reflected in 13 13 At some point we have to prioritize. I the fact that there are virtually no prosecutions for 14 that other than one that's been referred to the Attorney 14 think the data points on some of these other more 15 15 important issues are very real and undisputed. We're General's Office. 16 16 Q. Does the low number of prosecutions necessarily enacting voter identification, photo identification 17 because we have the ability to do so, but it doesn't 17 mean that there's a low amount of voter fraud or could 18 18 it also just mean that there's a low amount of voter necessarily mean that it rises to the level of import at 19 19 fraud that's been detected to date? the exclusion of our priorities, and so I think that we 20 20 A. I think that when you compare that data point, could have done this another way. 21 21 And I think the State of Texas is well one actual indicted case of voter fraud, and you say I 22 22 have time to work on that or I have time to fix a budget equipped to, you know, find a legitimate means to come 23 23 that needs \$27 billion, I think I know what's more up with a very laser like solution to a very specific 24 24 important to the voters I represent. problem, and, instead, you know, we took a mallet 25 And -- And if it's -- You know, those 25 instead of a scalpel and 600 to 700,000 minorities have 182 184 1 kinds of choices, I think, it's easy. If it's -- You 1 voter registration that doesn't have a driver's license. 2 know, I'm -- I'm bound and determined to pass something 2 That's a big concern for me. 3 3 that I haven't been able to pass since 2005 and, you Q. But does MALC believe that Texas must tolerate 4 know, then I think that's -- I think budget and other 4 some voter fraud before it could enact a photo ID law? 5 important issues aren't really as significant as passing 5 A. I think that when Texas decides to address the 6 6 something that you've thought you should have been able real or perceived allegations of voter fraud, we need to 7 7 get it right is what I think. If it means we have to to do six years ago. 8 Q. How much fraud should Texas be required to 8 tolerate fraud or if it means we have to put it off a 9 9 discover before the legislature is permitted to enact a session, if it means we have to study it, if it means we 10 photo ID requirement that is designed to prevent fraud? 10 have to put some money into discovering what the real 11 MR. Argumentative, 11 problem is, then we should do it because I think that if 12 12 assumes conclusions that the witness has not testified someone telling me, well, how many -- you know, how many 13 13 guilty people on death row are we are going to have to 14 A. I think that -- I think that when we have 14 spare their lives so that we can save one who's 15 140 days to conduct the people's business and our only 15 wrongfully accused? I don't know if we can make that 16 constitution requirement is to pass the budget, doing 16 judgment. And so I want to be careful when we're 17 things, setting emergency calendar items, that -- that 17 trampling on people's constitutional rights, and I want 18 18 we did in 2011, nothing was more emergent than closing a to get it right. I don't want to pass a bill on a 19 19 \$27 billion budget shortfall, and so for everyday that 20 20 we spent working on these types of issues, you know, Q. So if Texas has to tolerate some fraud before 21 21 sometimes when you have a hunch that something's going it can enact a photo ID, is that suggesting or isn't 22 22 that suggesting that Texas can't attempt to prevent on and you want to make sure you perfect the 23 voter fraud, rather, it may only attempt to cure it 23 legislation, we pass a lot of studies. 24 We empower our Department of Public Safety 24 after it becomes a big enough problem? 25 25 MR.
